Dear ACEing Autism Community,

We are thrilled to announce that this year marks the 15th anniversary of ACEing Autism, and we couldn't have done it without your unwavering support since our launch in 2008. Your contributions have helped us grow from serving just one community to now reaching over 125 across the country.

To kick off our celebratory activities, we launched a month-long celebration in April, with events and activities that will continue throughout the year. We are excited to announce successful launches during our Spring season in Buffalo, NY; Lubbock, TX; Pulaski, TN; Berkeley, CA; Katy, TX; Washington, DC (Georgetown University); and Denton, TX. We also have new programs starting and current programs returning. We are grateful for your support in making this possible. For a full list of our program locations, [CLICK HERE](#).

But that's not all! ACEing Autism will be featured on the Dr. Phil Show once again this month. In addition, our Burbank Program, led by Program Directors Hayley O'Reilly and Brooke Fennell, was recently recognized by the city of Burbank for Autism Acceptance Month. Mayor Konstantine Anthony, who is the first Mayor in the country diagnosed with autism, presented the proclamation to Hayley and Justin Belisario (Director of Program Operations). See the picture [HERE](#).

As we celebrate this milestone, we are also reminded of the work that still lies ahead. The recent update from the CDC on autism prevalence, now recorded at 1 in 36 children, reinforces the importance of our mission to reach more communities that lack services like ours.

We invite you to join us in celebrating this tremendous milestone. Below are some ways you and your family can get involved, stay connected to our work, and help us impact new communities in the years to come.

Here's to another 15 years of Fun, Fitness, and Family with ACEing Autism!
